

Resizing of Image

```
import cv2
from numpy import *
import numpy as np

imag = cv2.imread('d:/Workspace/mandrill.tiff')
cv2.imshow('Image', imag)

#resize
res = cv2.resize(imag, None, fx=2, fy=2, interpolation = cv2.INTER_CUBIC)

cv2.imshow('Resize',res)
cv2.waitKey(0)
```
